Information Systems graduate with hands-on experience in web application development and practical LLM integration. Experienced in exploring LLM-based Text-to-SQL using Ollama and Groq API to enable natural-language querying of operational databases. Proficient in JavaScript, Next.js, React.js, Node.js, MySQL, Git, and API integration, with strong interest in AI applications, automation, and independent technical research. Holds a BNSP Junior Web Programmer Competency Certification.

SELECTED PROJECTS

Operational Report Analyzer | Personal Project *Okt 2026*
Full Stack Developer | Github | Demo

- Developed an AI-powered web application using Next.js and TypeScript to analyze unstructured operational reports and generate summaries, key issues, metrics, and recommended actions.
- Integrated the Groq API to process natural-language reports using an LLM and transform them into structured operational insights.
- Implemented TXT and JSON export and bilingual Indonesian-English support to improve usability and facilitate reuse of AI-generated results.

Workshop Service Management System *Feb – Apr 2026*
Full Stack Developer | Github | Demo

- Integrated an LLM-based Text-to-SQL system using Ollama for local development and Groq API for deployment, enabling natural-language queries of operational data and automated visualization of results as charts, diagrams, and tables.
- Developed a centralized workshop operations management system using Next.js, Tailwind CSS, and MySQL, applying SDLC practices and reusable UI components to support end-to-end service operations.
- Collaborated closely with users throughout the development lifecycle to gather, document, and translate business requirements into system features. Implemented RBAC, data encryption, and invoice preview/download.
- Achieved a 94.77% User Acceptance Testing (UAT) score from 10 users, validating system usability and user acceptance.

Decision Making System "Wavercision" *Dec 2025*
Front End Developer | Github

- Developed a responsive Decision Support System (DSS) using the Analytical Hierarchy Process (AHP) and Simple Additive Weighting (SAW) methods to rank 45+ beach destinations across Java Island based on user-defined criteria.
- Collaborated with a development team and validated system rankings against manual Excel calculations to verify result accuracy.

INTERNSHIP EXPERIENCE

PT Otak Kanan *Sep – Dec 2024*
Full Stack Web Developer

- Developed responsive Point of Sales (POS) interfaces using React.js and Tailwind CSS with reusable UI components.
- Built REST APIs using Node.js and Express.js, integrated MySQL databases, and tested API endpoints using REST Client.
- Implemented JWT-based authentication and session management to support secure role-based access control (RBAC), and used Git for version control and team collaboration.

Amanah Solution *Apr – Jun 2021*
Web Developer

- Managed and published content for 200+ boarding houses using Joomla, compiling information on room availability, facilities, pricing, images, and locations based on Google-sourced information, with over 2,000 words of content per property.
- Built a business branding website for an online store development service using Blogger, customizing XML-based templates with HTML, CSS, and JavaScript to create a responsive layout and present business information effectively.

EDUCATION

Universitas Pembangunan Nasional Veteran Jawa Timur *Sep 2022 – Jun 2026*
Bachelor of Information Systems | GPA: 3.87/4.00

- Awardee : Beasiswa Pendidikan Tinggi Pemerintah Kabupaten Sidoarjo 2025
- Graduated with Honors (Cum Laude)

ORGANIZATIONAL EXPERIENCES

UKM Badminton UPN "Veteran" Jawa Timur *Jul 2024 – May 2025*
Head of KOMINFO Departement (Media Information and Communication)

- Led digital communication and social media strategies to increase organizational visibility, reaching 78K visitors.
- Directed content production and team coordination to align social media content with organizational goals, achieving 250 likes on a single post.

CERTIFICATION

TOEFL *Sep 2026*
Global Operation Indonesia | Score: 610

Certificate of Competency (Junior Web Programmer) *Nov 2025*
Badan Nasional Sertifikasi Profesi (BNSP)

Certificate of Competency *Apr 2022*
Asosiasi Pengusaha TIK Nasional (APTIKNAS) | Score: 90

Certificate of Competency *Nov 2021*
PT Awak Media Indonesia (AMIGROUP) | Score: 90

SKILLS

AI & LLM: LLM Integration, Text-to-SQL, Ollama, Groq API
Programming: JavaScript, TypeScript, React.js, Next.js, Node.js, HTML, CSS
Database & API: MySQL, Database Design, REST API, API Integration
Tools: Git, GitHub, Figma, Microsoft Office
Soft Skills: Problem Solving, Analytical Thinking, Research, Communication, Teamwork
Languages: Bahasa Indonesia (Native), English (Intermediate)
